road, which is being financed by J. G. White & Co., of New York, according to reports from that city.

There is reason for believing that this railroad will-eventually be turned over to the Canadian Pacific and Chicago and Northwestern systems under a plan of joint ownership.

The Canadian Pacific has a line nearly completed into Spokane. The Chicago and Northwestern is built nearly to the Idaho line. The interests behind the North Coast Railroad are building seventy miles to the entrance of Tieton Pass through the Canade Mountains, through which the North Coast road will reach Tacoma.

conclusion, namely, that the handwifting of the letter about the Congo was not that of the bordereau. Together, we realized this discovery, and we felt as if an earth-uake had shaken us. "Maurice immediately announced his determination to publish the photo of the bordereau, so that every one possessing letters written by Dreyfus would be able to make comparisons, and the following day the people genwould be be to make comparisons, and the following day the people generally, and the Dreyfus family 'n particular, saw for the first time what has since been known as the bordereau.

"The appearance of the autograph of the bordereau led M. Castro, a stock broker, to recognize it as being in the handwriting of one of his clients, Count Exterhasy, thus prociptating Esterhasy's trial and the publication of Zola's famous 'I accuse' letter If I had not forgotten to answer the letter Dreyfus wrote to me about the Congo, the photo of the bordereau would not have appeared in the Mattin, and Dreyfus would be dead in shame or still confined on Devil's Island.

VENEZUELA.

The new "Halfbreed" saw the light yesterday upon the Burbank stage, and was given twice, before enthusiastic "capacity" audiences.

In form, subject matter and locale "The Halfbreed" is the peer of any play that Mr. Morosca and Mr. Cottell have written; in execution and technical construction it is inferior to the clever "Judge and Jury," which is now on its way to metropolitan celebrity.

now on its way to metropolitan celebrity.

The faults of the present production are clearly defined. They are want of continuity, suppression of action in important places, lack of genuine "atmosphere," and the pulling in by the hair—to borrow an old phrase—of certain melodramatic materials that have no possible connection with the development of the plot itself.

As far as the creation of the piece is concerned it is an almost faultiess success, for Mr. Morosco's stock company contains more good character actors than the average aggregations that come out from New York with larger billing and four times the price.

Bishop Conaty Discusses Catholic Education.

St. Louis Priest Celebrates High Mass.

Yesterday was a red-letter date on the calendar of St. Joseph's parish. The occasion was the dedication of the splendid new parcelais school at Twelfth and Los Angeles streets. The parish is composed largely of Ger-mans.

mans.

Pather Raphael Puhr and his assistant Franciscans were overjoyed at the successful outcome of a dream which they had long treasured.

Rt. Rev. Thomas J. Conaty, Bishop of the Discose of Montery and Loss

Rt. Rev. Thomas J. Conaty, Bishop of the Diocese of Montrery and Los Angeles, made St. Joseph's his head-quarters during the day and received an enthusiastic welcome from the members of his flock. In the morning he was present at high mass, "coram pontifice," and preached the sermon. The celebrant was the Very Rev. Hugoline Sterff of St. Louis, Order of Franciscan Monks. Mgr. Harnett and a large number of priests assisted at the mass, number of priests assisted at the mass, following which the Papal benediction

following which the Papal benediction was imparted and the sacrament of confirmation administered to a large class of children.

In the afternoon at 3:30 o'clock the ceremony of dedicating the school took place and was witnessed by a great concourse of people. A procession was led by the Foresters' Band, and the various church societies of the parish various church societies of the parish participated. After the dedication Bishop Conaty spoke, in part, as fol-lows:

lows:

The parochial school system builds itself upon the belief that a parent is responsible to God and society for the proper training of his children, and as the Catholic parent believes in the church as the teacher and helper of his moral life, he feels himself bound to contribute to the establishment of a school in which his parental responsibility for the moral education of his child shall be taken care of in the way which will best fit that child for his Christian duties.

child shall be taken care to the child for his christian duties.

"The school that trains conscience according to the laws of God, that teaches the doctrine that develop the spiritual life, that alms to ground character in the moral principles of Christ, is a school that stands as a friend to society, to liberty and to true citizenship. Its purpose is to fit man to meet the great obligations of life by helping him to resist evil and do good.

"This school believes in Christ as the teacher of childhood and of manhood. It believes that the influence of Christ should not cease for a moment during that formation period which children pass in school and which renders them afterwards worthy of the confidence of their fellow-men and builds them into a character which is prepared to meet all the responsibilities of public as well as private life.

Her Health.

Miss Ida Keisey committed suicide at the home of S. B. Osborn, No, 162s. West Twenty-third street, early yesterday morning by drinking carbolic acid. Despondency over ill health is given as the cause of the suicide. Six months ago Miss Keisey came to Los Angeles from Salt Lake City and entered the employ of ar. Osborn as a housekeeper, Since that time the woman's health gradually has been declining.

When the Osborns arose yesterday morning they were surprised to find that the young woman was still in her room. All efforts to awaken her were of no avail and Mr. Osborn forced the door.

The body was sent to Breese Bros.' undertaking parlors and a cousin, J. Brandis, was notified.

INFECIAL CORRESTONDENTS OF THE TIMES.

BIBBEE (Aris.) July 14.—The Mexican government is making efforts to determine the source of the supply of arms and ammunition being brought across the border and distributed among the Yaquis and disaffected miners of the Cananea district. The Mexican authorities have no doubt of the ristence of an "underground rail road" for the shipment of arms across the lorder and distributed among the Yaquis and disaffected miners of the Cananea district. The Mexican authorities have no doubt of the shipment of arms across the line, in dedance of the laws and customs regulations of the republic and for the benefit of rebels against the government. Several mining companies at Cananea and other places in the morthern Sonors district brought in arms for the defense of their propose of the propose of the

AFTER MINING COMPANIES.

Because of the force of a judgment lately rendered in the Arizona Supreme Court, affecting primarily the taxes of the United Verde Copper Company at Jerome, it is possible that the Copper Queen Consolidated Mining Company may be compelled to pay into the Cochise county treasury about a field the seement of 1801. At that time the composition of the county Supervisors put a fial assessment of 1801. At that time the assessment of 1801. At that time the county Supervisors put a fial assessment of 1801. The Attorney-General has in-ucted the Cochise County Treasurer collect the back taxes and has ted that he will prosecute any little that may result.

STABS FAITHLESS WIFE.

A short time ago, Samuel Scales, jealous of his wife's inclination toward a lofiger in the Scales home, shot the wife in the hip. As frequently happens in such cases, Mrs. Scales has become convinced that her husband discharged the revolver by accident and upon her testimony Scales has been released. The man in the case has left the camp.

Two persons, a woman and a child, were injured in a street-car accident yesterday morning at the intersection of West Forty-sixth street and Vermont avenue. An inbound San Pedro car of the Interurban Railway Company jumped the track at this point and crashed into a Vermont avenue car which had come to a stop at the street corher.

The accident was most peculiar and that no one was killed seems miraculous. The double track system of the Interurban Railway Company extends

TOTEMITES AND TINGLEY TILT. Woman's Playhouse Declared "Unfair" With Employees.

With Employees.

SAN DIEGO, July 15.—[Exclusive Dispatch.] The Federated Trades and Labor Council has declared Katherine Tingley's playhouse, the Isis Theater, unfair. A few weeks ago Mrs. Tingley and the theater employée had trouble. The employee walked out and Mrs. Tingley put men of her own choosing in their places. The Stage Carpenters' Union undertook to take the matter up through the Arbitration Committee of the Council, but they saw that neither

New Course for Golfera.

The sift to the polo club of a site for new field on the at just below the Suntry clubhouse will necessitate the aying out of two new holes, for the bole field will cover the ground now used for the first and last holes of the resent course. Something will be lone this week in the way of new toles, but it is presumed that what is ow No. 2 hole will hereafter be No. 1, and that No. 2 will be made across the arranca to the northeast of the present No. 2 hole. These new holes will all probability change the bogey one. While the club course is gradually being encroached upon for valous reasons, it is not likely that the jub will move to its new grounds for everal years.

FLOOD IN COLORADO. des Canyon Drenched by Dov pour and One Man Is Drowned

at Berwin.

(BT THE ASSOCIATED PRESS—P.M.)
TRINIDAD (Colo.) July 15.—A hundred people, who live in Rhodes Cafon, fifteen miles rorth of this city, slept in a drenching rain on the hills to escape a terrible flood that is raging in that cafon.

One man whose name is not known, was drowned at Berwin. Seven houses and a general store of the mining camp of Tabasco have been washed away.

The water came flown the arroyour carrying many cattle and horses with it. All bridges across the stream, including the Colorade and Southern bridge at Tarasco were carried away by the flood.

The north-bound train on the Colorado and Southern is held a few miles below here owing to the washing away of the track, and passengers cannot be transported acrops the bridge.

The flood in this city did considerable damage, a number of buildings along the river being flooded. Street car service was put out of commission by the flooding of the power-house.

Mrs. Sedwick is a slender, delicate woman who could not have had strength enough to impede the man had she caught him.

Dr. A. T. Wilson, who rooms in the Sedwick home, had been out with a patient and had returned only half an hour before.

He was aroused by Mrs. Sedwick's commands to the burglar to get out, as were the neighbors, who called up by telephone or came over to see what the matter was. The rustling Mrs. Sedwick took for rain was the noise the robber made in searching Mr. Sedwick's clothes from which he took a watch.

Probably the first of the series of robberies was perpetrated at the home of George P. Winslow, No. 1387 Walnut street, about a block from the Sedwicks. Mr. Winslow conducts a meat market on Central avenue near his home.

"I had plenty of firearms handy, relics of the day when I was a deputy in Williams, Ariz., and he could not have gotten away without rendering me helpless with chloroform before he started to look for booty.

"I think I saw the fellow this morning. I intended to go fishing with some friends and awoks about 4:30 c'oleck to prepare for the trip. I felt very much like I had been drugged and when I looked for my trousers they were gone. I found them later, minus about \$14 and a gold watch.

"Upon the Vernon car I boarded for downtown about \$0 c'oleck was a fellow in a light suit, wearing a pearl gray hat, the latter pulled down over his eyes. He seemed trying to avoid scrutiny and I at once thought of the burgiar.

"I looked more closely and saw seeds upon his hat—identically the kind of seeds I had noticed on a big plant which grows beneath the window of my house through which the burgiar entered. I was tempted to tackle him, but didn't—and now I'm sorry, for I think he is implicated in all these robberies."

Early years spent on a farm gave to J. M. Boal a large frame and strong constitution which stood by him through life. It is said that, except for a slight illness three years ago, he never knew a sick day in his life. One of the most cheering and surprising of his doctrines is that man is
a series of seasons.

When you have that awful grouchy
feeling and that taste in your mouth,
it only means that your ego is very
late in the fall and just buffeting
against the first of an ethereal hard
winter.

These and many other ideas Dr.
Hanish turned bose last night.

After an evening under his instruction, it is plain to see why so many

The hall was draped with red. white, and black streamers, arranged in a hypnotic tangle.

The big audience had seated itself and was scarcely breathing when a young man sat down at the plano and began a langorous tune that floated out on the breeze like a caress. Just as all were floating off on this musical dream a Salvation Army band came whooping around a corner like a religious whirlwind.

The collective ego of that band must have been entering a particularly nasty March thaw. It knocked the poetry to a-finish.

LIKE A FORLORN HOPE.

Capt. Gadsdon seemed to go out to the support of a rather forlorn hope, and smart Santa Monica fielding nearly finished him when he slipped one hard, and it got returned so quick that the wickets were down before half a run was made. Barwell took Justice to aquare leg for three, but revenge came in the next ball—a beaut, which lifted Barwell's bails with scarcely a rattle. Tom Brown then joined Gadsdon, who insisted on a habit of playing nearly everything into the slips. Elliott saw this habit and had the slip field filled up. The bowler won, and Gadsdon gave the inevitable to Le Bas and retired for five. Thirty-two runs for five wickets.

Davis was the next applicant for flory and he got two. But Justice's seadwork was too many for him, and is tempting him with a full bitez got his wicket soon.

MANY MEN ANXIOUS.

WANT TO OWN BALL CLUB. According to all experts no one need be afraid that baseball will be cut out of this city, for there are too many men of money actually pining to own a ball club. Instead of the game being a ball club. Instead of the game being in a precarious position, a number of men are chasing Manager Mead night and day trying to bunco him into selling a majority of the stock in the club. There are several fellows very anxious to get the controlling interest in the team and the way they go at it is amusing. Instead of coming out in the open they send around boys and men who talk on high finance as if they were sons of Vanderbill or Hetty Green. Some of these chaps probably never saw \$5000, but veh solemnly talk of being willing to put up enough cash at once to trke a majority of the stock of \$20,000. For the benefit of the would-be owners it may be stated that no oneman or clique of men will be allowed to buy the majority of the stock if it is possible to prevent this

BUT NO AIRSHIP.

A long look over the western horison revealed no airship. As the prevailing wind seemed to be very northerly, the auto retraced the grades, with a full load of small boy volunteers, and then started back to Los Angeles over the foothill road, expecting to pick up the Man Angel some where about Azusa.

The non-appearance of the airship was a great disappointment to Reynolds, and he was greatly worried over one fact generally not thought of. Frisbie had forgotten to take any water with him, and Reynolds was afraid he would be thirsty.

At Azusa word of the airship was received by 'phone, and the machine sped along the road to Los Angeles without the passengers straining their eyes looking for a brown speck in the heavens.

George Frisbie said last night that he considered the flight one of the tents with the considered the flight one of the tents.

Umpire Hodson Grows Shy.

Since coming here Umpire "Taploca"
Hodson, formerly an Oakland pitcher,
has concluded that Los Angeles is a
bad town to umpire in, for when he is
not roasted by the players of both
teams the fans take a fall out of him.
He has not shown any signs that he
was threatened with any great ability
as an umpire, for he is too much inclimed to "even up" bad decisions and
then occasionally changes rulings
when he makes them.

State Law Rules.

General misunderstandings relative to the exact status of the game laws were caused by the attempts of various Boards of Supervisors to regulate the matter, and the various counties adjacent to Los Angeles are rapidly following the lead of the local board in removing the measures from their books.

books.

In general, hunters will be quite safe in remaining within the State law. It is not thought likely any wardens will bother those who defer deer hunting until August 1 and do not exceed the limit. Definite advices have been written for, and the exact law will be printed next Sunday, comprising all the counties.

Los Angeles is becoming more

and more a mining center for the great Southwest. This section embraces some of the richest mining deposits of the North American continent, including the bonanzas of Southern Nevada and Utah, the rich de posits of copper and other metals of Arizona and New Mexico, and the great mineral wealth of Sonora. Indeed, the activity of our local investors extends much farther afield than this, for Los Angeles mining syndicates are now operating in such wide-ly distant regions as Alaska and Southern Mexico. Alaska, however, mainly pays tribute to Seattle, as a financial and commercial center. It is said that the Puget Sound city has received over \$25,000,000 from this source. Los Angeles may well be con-tent to leave that remote country to

In this connection it is well to utter a word of warning against the parasites that always gather around the development of any important industry as vultures gather around a decaying carcass. Mining is a subject upon which the average person is illusor manner and informed and is consequently a ready prey for designing and conscienceless schemers. It does however seem as if any person possessed of ordinary common intelligence, although absolutely ignorant of mining matters.

It was only natural that in the Beecher family the name of Mrs. Harriet Beecher Stowe was often quoted to the younger generation as one having authority.

On one occasion, says the Detroit Free Press, a grandniece of Mrs. Stowe became very angry at one of her little playmates, and, stamping her foot, said: "I hate you and I don't want anything more to do with you, nor your manservant, nor your maidservant, nor your ox, nor your ass."

Her mother, hearing the outburst, sternly reproved her offspring, asking her if she knew what she was saying.

The new home of the Plymouth Congregational Church was dedicated with appropriate ceremonies this afternoon and thirty new members received into full fellowship. A notable feature of the occasion was that the pastor, Rev. C. P. Doriand was assisted by Rev. Betts and Jewell of the Methodist denomination and Rev. Mitchell of the Friends faith. The new building is really the Sunday-school room 70x60 feet, and is built on the rear of the church lot at Fourth and Loust streets, where a modern church will ultimately stand, but for awhile the congregation will use the present building for all services.

The cricket game on the athletic grounds today resulted in victory for the Santa Monica team. The scor was 123 for Santa Monica and 64 for the Los Angeles eleven. This was the score of the first innage and stood as the score for the game as time was called before the second hings were concluded.

The beach was crowded throughout the day. The reduced over-Sunday rate from Los Angeles on the electric case brought many visitors for a day on the sand and in the surf. The bathhouse and all amusement attractions and refreshment concessions did a big business. The fishermen were generously rewarded for their efforts and boating was at its best.
